SHADOW YARN is a delicate lace evocative of passing shadows.

The 100% springy, ultra-soft Merino wool provides a light touch of warmth and the complex, deeply heathered colorways ensure wardrobe versatility as the subtle blends shift to complement a range of palettes.

Held double, Shadow forms more substantial lace projects without compromising on drape or loft. Shadow also results in garments and accessories with a relaxed, easy drape.

YOUR GUIDE TO WINDING YARN

WINDING BASICS

Yarn hanks need to be wound into cakes or balls before knitting or crocheting! A hank is a loop of yarn with two ends; if you knit directly from an opened hank, your yarn will become tangled. By winding a hank into a cake, you create a portable ball of yarn that is easy to work from and will not tangle. Use a Yarn Swift to hold hanks of yarn open and in place as you wind them into cakes using a Ball Winder.

PREMIUM WINDING STATION

Our Premium Winding Station is the go-to gift that keeps on gifting. This kit includes everything you need to wind up and organize skeins with ease, including a scale that makes it a snap to size up the yarn odds and ends that every fiber enthusiast has hiding in their stash. Kit includes Knit Picks Knitting Yarn Swift, Knit Picks Yarn Ball Winder, Knit Picks Maplewood Yarn Bowl, and Weigh'n Digital Scale.

82001 \$131.97 \$98.97 *save 25%*

STEP ONE

Secure swift and ball winder to table top or counter up to 1-1/2" thick with bottom clamp. Be sure there is enough clearance around the swift for the umbrella to fully open and spin freely.

STEP TWO

Untwist your yarn. It should come in a nicely twisted figure 8 hank, and when it is untwisted, it will look like a big loop of yarn. Drape the open hank over the closed swift and pull it lightly to hold it at the center of the ribs. Open the swift like an umbrella, pushing the runner up the center shaft until your loose yarn hank is held firmly around the swift.

STEP THREE

Holding the swift runner in place, slide the center clamp up and tighten it under the runner, securing the swift in the open position.

STEP FOUR

Make sure your yarn is not twisted anywhere around the swift. Cut the ties around the hank. Now find the end of the yarn and pull, and the swift should spin freely.

STEP FIVE

Thread yarn tail through the guide on your ball winder. Secure the thread by pressing the strand down into the notch at the top of the spindle. Turn the handle clockwise to wind your yarn into a cake around the swift. *Pro tip: For best winding, position your ball winder so that the metal guide is pointing directly toward the swift and not at an angle.*

STEP SIX

Now your yarn is in a cake! You can either pull a tail from the outside or the inside of the skein. *Pro tip: If you pull your tail from the inside of the cake, your strand is less likely to twist and your skein will not roll as you knit!*

Choose Your NEEDLE STYLE

Whether you love the waves of color in our laminated birch needles or the slick surface of nickel, we have everything you need to knit happy!

With hundreds of variations at your fingertips, you can swiftly create the perfect needle for any project using our Interchangeable Options tips and cables. Buy pieces individually, or save when you purchase a full interchangeable set.

Our **nickel-plated needles** have a slick, glass-like surface which allows your stitches to move freely, while the hollow brass tube is extremely lightweight for hours of comfortable knitting.

If **laminated birch needles** are more your style, we have 3 vibrant colorways to choose from. The smooth, burnished surface of our wood needles are perfectly balanced with just the right amount of grip, which works wonders for working with slick fibers like mohair, silk, and angora.
