YOUR GUIDE TO WINDING YARN

WINDING BASICS

Yarn hanks need to be wound into cakes or balls before knitting or crocheting! A hank is a loop of yarn with two ends; if you knit directly from an opened hank, your yarn will become tangled. By winding a hank into a cake, you create a portable ball of yarn that is easy to work from and will not tangle. Use a Yarn Swift to hold hanks of yarn open and in place as you wind them into cakes using a Ball Winder.

PREMIUM WINDING STATION

Our Premium Winding Station is the go-to gift that keeps on gifting. This kit includes everything you need to wind up and organize skeins with ease, including a scale that makes it a snap to size up the yarn odds and ends that every fiber enthusiast has hiding in their stash. Kit includes Knit Picks Knitting Yarn Swift, Knit Picks Yarn Ball Winder, Knit Picks Maplewood Yarn Bowl, and Weigh'n Digital Scale.

82001 ~~\$131.97~~ \$98.97 *save 25%*

STEP ONE

Secure swift and ball winder to table top or counter up to 1-1/2" thick with bottom clamp. Be sure there is enough clearance around the swift for the umbrella to fully open and spin freely.

STEP TWO

Untwist your yarn. It should come in a nicely twisted figure 8 hank, and when it is untwisted, it will look like a big loop of yarn. Drape the open hank over the closed swift and pull it lightly to hold it at the center of the ribs. Open the swift like an umbrella, pushing the runner up the center shaft until your loose yarn hank is held firmly around the swift.

STEP THREE

Holding the swift runner in place, slide the center clamp up and tighten it under the runner, securing the swift in the open position.

STEP FOUR

Make sure your yarn is not twisted anywhere around the swift. Cut the ties around the hank. Now find the end of the yarn and pull, and the swift should spin freely.

STEP FIVE

Thread yarn tail through the guide on your ball winder. Secure the thread by pressing the strand down into the notch at the top of the spindle. Turn the handle clockwise to wind your yarn into a cake around the swift. *Pro tip: For best winding, position your ball winder so that the metal guide is pointing directly toward the swift and not at an angle.*

STEP SIX

Now your yarn is in a cake! You can either pull a tail from the outside or the inside of the skein. *Pro tip: If you pull your tail from the inside of the cake, your strand is less likely to twist and your skein will not roll as you knit!*

- BLOCKING - CONSIDERATIONS FOR CABLES

- Blocking allows your yarn to "bloom" (aka plump and soften) and stitches to smooth out for a uniform look.
- Treat your project gently, careful not to overstretch or flatten your plump cables.
- Follow finished schematic or project dimensions in your pattern to get the size right.
- You can gently pinch or fluff cables up with your fingers while still damp to encourage them to stand proudly in your finished knit.
- Blocking wires aren't just for lace! Use them for perfect edges and crisp lines for shawls, scarves, and hems!

PAYNE'S HAT {52700D} Knit in Provincial Tweed.
Yarn cost starts at \$12.99.

NEW COLORS!

MUSE™

SOCK YARN

Hand-painted by Japanese artisans, each skein of this gorgeous sock yarn is a carefully curated EXPLOSION of chromatic colors!

Muse sock yarn is a soft blend of fibers, making this a yarn that is next-to-skin soft yet durable. Although designed as a sock yarn, Muse is also wonderful in shawls and lightweight cardigans as well! With machine washable convenience, Muse Sock Yarn makes it easy to enjoy a whole closet full of garments and accessories just bursting with color.

Now available in stunning bursts of speckled colorways, each skein is hand painted for maximum effect. Precise distribution of color minimizes the streaking and pooling you might see in other hand-painted yarns.

Our team works hard to bring you unique custom colorways you won't find anywhere else. We love to mix and match between all of the colorways for truly unique and showstopping socks or accessories!

WONDERFLUFF

Effortlessly Cozy

Softer than a kitten, fluffier than a cloud, and light as a feather—Wonderfluff is a technological marvel! Silky baby alpaca and fleecy merino fibers are gently blown into a lightweight nylon mesh tube. The result is a yarn that's beautifully bulky yet lightweight and warm. Wonderfluff works with a wide range of needle sizes and the generous yardage allows for large, luxurious projects.

Bulky | 70% Baby Alpaca, 7% Merino Wool, 23% Nylon. \$8.99/50g ball - 142 yds.

The loftiness of Wonderfluff is top notch and the squishiness is off the charts! With an added array of 18 candy coated jewel tones, this plush wonder is even more enticing.

YOUR GUIDE TO READING CHARTS

Decoding Charts

A chart is like a map that illustrates how a pattern will look when it is knit up! Whether you're new to charts or an old hand, we've got some handy tools and guidance for perfect projects.

Remember every chart includes a legend or key to deciphering the different symbols in each chart. Stitch symbols are not universal! What represents a knit stitch in one chart could be a purl on another, so it's important to read your legend thoroughly in each pattern.

Try using a magnetic chart keeper (80314 - \$14.99) to track your progress and keep your pattern tidy as you work!

Tips and Tricks

One of the trickier aspects when you begin knitting from charts is keeping track of where you are. Here are a few suggestions to help you keep your place.

Make check marks along the side of the chart so you can tell at a glance which rows you have completed.

Use a highlighter to highlight the row you are on. This is a nice option because it's transparent, so you can still see the overall pattern of the chart.

Use a sticky note to cover rows you've already completed and move it up as you go.

A Chart Keeper is portable and has a magnetic backboard to hold your pattern in place. As you knit, you block off the rows that you finish with additional magnets.

Many knitters find charts intimidating, but once you learn the language of charts, you may discover that reading charts is easier for you than following written instructions. Charts are a wonderful visual aid for those who get lost using written patterns. The majority of patterns for lace, colorwork, and cabled projects include a chart or two, so chart reading is a valuable skill for every knitter to possess.

Chart Reading in the Round

If you are knitting a pattern in the round, you will read the chart from right to left on every round.

For instance, on this cable chart, you'll notice that all of the rounds are marked with numbers on the right-hand side. That indicates that you begin reading each round on the right-hand side. In this example, you start Round 1 by purling 2 stitches, then cable 2 over 2 stitches to the right (2/2 RC), then knit 2 stitches. In Round 2, you purl the first 2 stitches then knit all the remaining 6 stitches of the chart.

Chart Reading with Flat Knitting

When you knit a project flat, you knit back and forth, turning your work each time you finish a row. In this type of chart, you'll notice that the numbers on the rows alternate between the left and right hand sides of the chart. This indicates that you begin with Row 1, on the "right" side of your work, and you read from right to left. After you finish Row 1 and turn your work, you begin reading the chart from the left-hand side, where the number "2" is. You work from the opposite side of the chart to compensate for the fact that you are now working the "wrong" side of your knitting.

Take note that the legend for the stitches is worded differently at this point. Since you're working both the "right" side and the "wrong" side of your knitting, a symbol on the chart may have a different meaning depending on which row you are working across. For example, a blank box will be knitted on the "right" side (odd rows) and purled on the "wrong" side (even rows).

Some charts show all rows, like the first chart. Other charts only show the "right" side of a chart, like the second chart. This is usually because the "wrong" side is the same every time. For example, in many lace or cable patterns, all of the stitches on the "wrong" side are purled or follow other simple instructions. You can tell if the chart is omitting wrong-side rows because there will be text instructions for those rows, and the numbers on the side of the chart won't be consecutive (note how this chart has only Rows 1 and 3).

WE'RE HERE TO HELP YOU DO WHAT YOU DO BEST: *CREATE*

Creating the best projects means not only having access to the best materials at the best prices, but the best tools as well.

Here at Knit Picks, we work with manufacturers and sell directly to you, offering great tools at amazing prices. And because we're knitters too, we strive to bring you needles we're as excited to use as we are to sell.

Interchangeable Circulars The foundation of the modern knitter's toolbox. Detachable needle tips and cables interchange to form a wide range of gauges and lengths on demand.

Available in 7 colorways and 13 sizes | Shown left in Majestic, starts at \$5.99.

Foursquare Tips They're a little different and a lot of fun! We took the same smooth, laminated birch of our popular Majestic needles and squared them. The slightly rounded corners provide a comfortable extra grip for your fingers and yarn, helping to keep your hands limber and your stitches even. We love these needles for beginner or "tight" knitters as their unique shape helps keep stitches loose and even.

Shown below. Tips start at \$4.99. Interchangeable set {91404} \$55.99.

Short Interchangeables

Shorter tips and special length cables designed to make smaller circumference projects—like hats and sleeves—easier to manage.

Available in 4 colorways and 7 sizes | Shown in Foursquare, starts at \$5.49.

Straight Needles These ARE your grandmother's needles. Elegant and simple, tried and true. For basic flat knitting, sometimes the classic methods are the best.

Available in 3 colorways and 25 sizes | Shown in Sunstruck, starts at \$4.69.

Double Pointed Needles Featuring tapered points at both ends for a classic solution to circular knitting and especially small circumferences, like socks.

Available in 5 colorways and 35 sizes | Shown in Sunstruck, starts at \$5.09.

Fixed Circulars These needle tips are permanently connected to cables of specific length, which is especially useful in smaller gauge projects that don't accommodate Interchangeable needle construction.

Available in 5 colorways and 35 sizes | Shown in Sunstruck, starts at \$5.89.

WAVES OF COLOR

Whether you love the waves of color in our laminated birch needles or the slick surface of nickel, we have everything you need to knit happy!

With hundreds of variations at your fingertips, you can swiftly create the perfect needle for any project using our Options Interchangeable tips and cables. Buy pieces individually, or save when you purchase a full interchangeable set.

Cocobolo Add an elegance to your needle collection with our Cocobolo Options Interchangeable needle tips. The rich, warm hardwood of our newest needle colorway pairs exquisitely with our black cables. This material makes superb knitting needles, providing a naturally warm hand, smooth surface, and exceptional strength. Equal parts magnificent and resilient, you'll be knitting in superior style for years to come!

Available in 13 sizes | Starts at \$5.99.

If **laminated birch needles** are your style, we have 5 vibrant colorways to choose from. The smooth, burnished surface of our wood needles are perfectly balanced with just the right amount of grip, which works wonders for working with slick fibers like mohair, silk, and angora. Plus birch wood is one of the most sustainable wood species. This makes our needles an easy choice when adding to your tool collection!

Available in 5 colorways and 13 sizes | Shown, from top left: Sunstruck, and Caspian. Shown, from top right: Rainbow, Majestic, and Radiant, starts at \$5.99.

Our **nickel-plated needles** have a slick, glass-like surface which allows your stitches to move freely, while the hollow brass tube is extremely lightweight for hours of comfortable knitting.

Available in 13 sizes | starts at \$5.49.

Add a splash of color to your knitting with **Prism Needles**! Our lightweight aluminum needles feature the same sharp points, flexible cables, and smooth joins as our other Options Interchangeable needles. Aluminum metal warms to your hands as you knit, and the slick metal surface allows stitches to slide off with ease.

Available in a complete set | {91461} \$59.99
